A-Z list about almost everything in Stanway but below is a short list showing some of the areas of responsibility which fall to Stanway Parish Council:

Stanway Parish Council represents the third tier of local government in the area and operates totally independently from the other two tiers, Colchester Borough Council and Essex County Council. SPC provides some of your local services, but not all. Our website has a comprehensive list about almost everything in Stanway but below is a short list showing some of the areas of responsibility which fall to Stanway Parish Council:

Please do not hesitate to contact a representative of the parish council with any questions:

It can take a while to adjust to a new home and a new area. Stanway Parish Council would like to welcome you to the neighbourhood, tell you a little about the parish council and provide some information to which you may find useful as you settle in. As your Parish Council, we strive to make Stanway a better place to live, work and play.

These people are your local Stanway Parish councillors:

Why your parish council is important? What the parish council can do for you?

There is often confusion about the role of a parish council. The name itself implies a religious connection but this is not true. A parish council represents the third tier of local government and has nothing to do with any religious organisation. An increasing amount of authority is being delegated to local government so proper consultation with all sections within the community is important, to ensure residents feel they are getting the best out of their parish council, being listened to, and actively involved with decision making. Your parish council aims to be a forum where local residents can air their views.

For democratic transparency it is important for the parish council to find ways for community members to influence the council's decisions and for different segments of the local population, who are often hard to reach, to feel that their voices and opinions are being heard. Stanway Parish Council supports the following methods of regular communication:

- Comments on SPC website and other social media
- Monthly meetings with a forum for the public to address councillors
- Unelected public members of committees and working groups
- Stanway Life, community magazine delivered to every household in Stanway
- Telephone call, email or letter to the Clerk or Deputy Clerk
- Public meetings arranged by SPC (Annual Parish Forum)
- SPC representation with local groups
- Contact details of councillors, making them visible

Stanway Parish Council is eager to recruit new councillors. Are you interested in community engagement?

Councillors at SPC are spending quite large amounts of your money. If it were up to you, **what would you want your money spent on? What are your priorities for your neighbourhood? What do you think your local community ought to have? What should it do? What is important?**
