

Laugh and Play UK Tour

The Flying Seagull Project is a UK based children's arts and circus charity. We operate around the world bringing love, light, and laughter to children in crisis. Now during the pandemic, you can imagine we have had to substantially change how we operate and for the foreseeable future are only able to run socially distanced circus, clown, and magic shows in the UK. So, we have decided to launch our Laugh and Play UK show tour!

Of course at the moment restrictions and safety measures don't allow us to perform but we're hoping that getting ahead of the game and reaching out to you now will mean that eventually - once restrictions lift in such a way that allows us to operate - we'll be able to get going quickly!

The Laugh and Play UK tour will consist of a small show team performing around a one-hour circus and magic show for children and/or families in schools, children in care, local community settings, youth support groups etc.

We'll be implementing social distancing measures – for example we will have sterilised hula hoops set out two metres apart to designate where audience members can sit, performed outside wherever possible in large open spaces, with a restriction on how many people can be in attendance. We operate in some of the most challenging environments in the world, on the borders of war zones, in chaotic and difficult places so we are very good at running things in a fun but safe and controlled way! There will be absolutely no cost to you, bringing some laughter and silliness to children who are having a tough time is exactly what our charity does!

We would heavily limit audience number perhaps to about 15 or 20 so how many shows would you need so everyone can access them? (we would be happy to perform the show multiple times so everyone you support can have access to it)
