Notice Publicising a Proposed Application for a Development Consent Order

HIGHWAYS ENGLAND COMPANY LIMITED of Bridge House, 1 Walnut Tree Close, Guildford, GU1 4LZ ('the Applicant') proposes to make an application ('the Application') under Section 37 of the Planning Act 2008 to the Secretary of State for Transport for a Development Consent Order.

The Application is for the proposed A12 Chelmsford to A120 widening scheme in Essex, England.

The proposed scheme's main proposals are, in summary:

- creation of two bypasses, one between junctions 22 to 23 and another between junctions 24 to J25
- widening of the dual carriageway from two to three lanes in each direction from Hatfield Peverel to Marks Tey
- improvements to junctions 19 and 25
- construction of new junctions 21, 22 and 24 providing access to the A12 both northbound and southbound
- removal of existing junctions 20a, 20b and 23
- provide new and improve existing walking, cycling and horse riding routes
- provide new local roads access and improve existing access to the proposed junctions
- provide environmental mitigation
- improve the safety performance of the road especially at the junctions and slip roads
- provide utility diversions where necessary
- remove all direct private access onto the A12 and redirect access via local roads and junctions
- temporary construction areas and access roads, together with works to secure vehicular and/or pedestrian means of access including the creation of new tracks, footpaths, and/ or widening, upgrades, creation of bell mouths, creation of temporary slip roads and improvements to existing tracks, footpaths and roads
- permanent and/or temporary compulsory acquisition (if required) of land and/or rights for the scheme
- overriding easements and other rights over or affecting land for the scheme
- the application and/or disapplication of legislation relevant to the scheme including, amongst others, legislation relating to compulsory purchase
- such ancillary, incidental and consequential provisions, permits or consents as necessary and/or convenient

The proposed scheme includes changes to a number of existing utilities. These changes include the diversion of two high pressure gas pipelines operated by Cadent Gas Limited. The first high

pressure gas pipeline is located between Springfield in Chelmsford and Little Braxted running along the southern side of the A12 within the local authority areas of Chelmsford and Braintree. The second is located between the Witham Bypass and Little Braxted running along the south of the A12 also in the local authority area of Braintree (the Diversions). To the extent that the Diversions satisfy the criteria to be considered an NSIP under section 20 of the Planning Act 2008, the Diversions will be treated as NSIPs in their own right.

Even though the Diversions may be treated as NSIPs in their own right, as they are part of the proposed scheme they will form part of the application for development consent which will be made by Highways England to the Secretary of State for Transport. To the extent the Diversions are an NSIP in their own right they would also be considered against the relevant energy National Policy Statements within the application.

The proposed scheme is Environmental Impact Assessment development ('EIA development'), as defined by The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. An Environmental Statement will be submitted as part of the Application. A Preliminary Environmental Information Report (PEIR) forms part of the consultation material.
